

5 Courses

Introduction to Network Automation

Using APIs for Network Automation

Ansible for Network Automation

DevOps for Network Automation (NetDevOps)

Introducing Model-Driven Programmability

Jun 5, 2024

**pei chen lee**

has successfully completed the online, non-credit Specialization

# Network Automation Engineering Fundamentals

This Specialization serves as a well-rounded survey of topics and core skills that a network automation engineer should know to effectively deploy and operate a NetDevOps environment.

The online specialization named in this certificate may draw on material from courses taught on-campus, but the included courses are not equivalent to on-campus courses. Participation in this online specialization does not constitute enrollment at this university. This certificate does not confer a University grade, course credit or degree, and it does not verify the identity of the learner.
